# TECHNICAL DOCUMENTATION
GEORGE DEKEIJZER
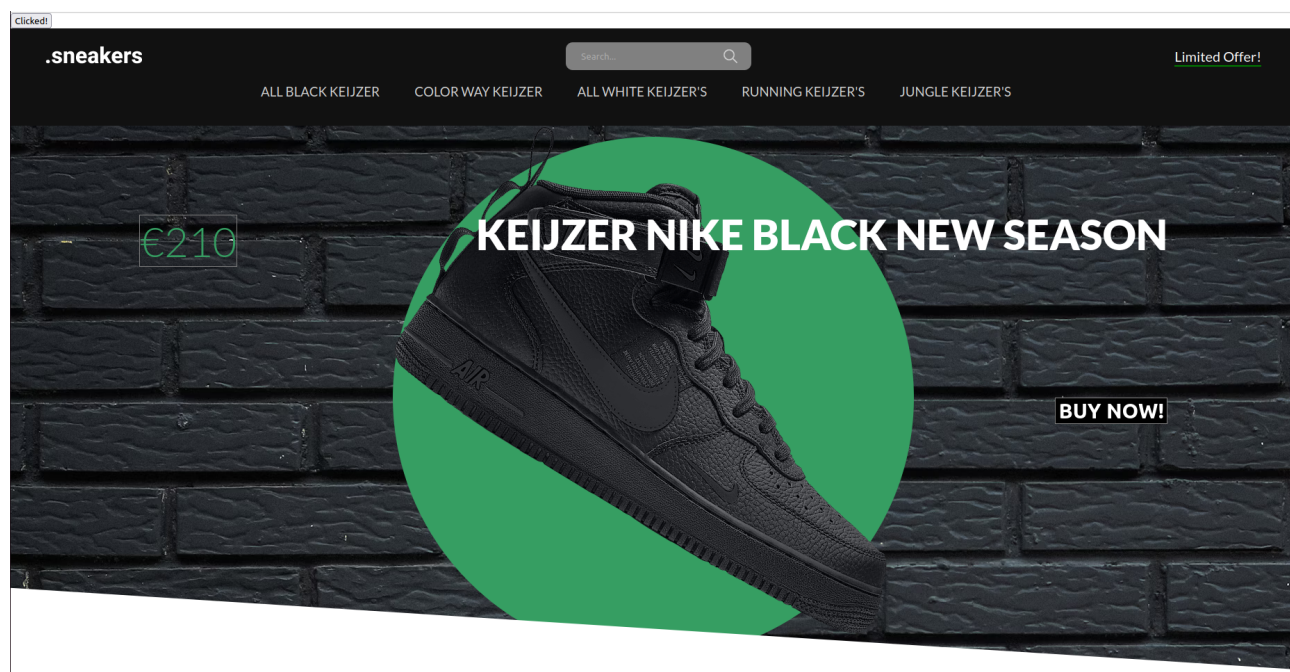

COMPUTER ECO SYSTEMS – INDIVIDUAL COURSEWORK PROJECT 2

This is a brief technical documentation where ill show certain screenshots of my webpage and browser's console.

Below is a screenshot of the event listener on my **html, css & java** webpage (before its clicked):

Below is a screenshot of the event listener on my webpage (after its clicked):

Below is the code of the script source of "Listener.js" & "Operations.js" in the **body** section as instructed in the coursework guidelines. On line : 14 , 16 & 17.

```
12
13    <body>
14        <button id="myButton">Click Me</button>
15
16        <script src="listener.js"></script>
17        <script src="operations.js"></script>
18        <nav id="nav">
19            <div class="navTop">
20                <div class="navItem">
21                    <img src="./img/sneakers.png" alt="">
22                </div>
23                <div class="navItem">
24                    <div class="search">
25                        <input type="text" placeholder="Search..." class="searchInput">
26                        <img src="./img/search.png" width="20" height="20" alt="" class="searchIcon">
27                    </div>
28                </div>
29                <div class="navItem">
30                    <span class="limitedOffer">Limited Offer!</span>
31                </div>
32            </div>
```

Below is a screenshot of the browser's console which uses the script "operations.js" , and compares num1 which is 10, with num2 which is 5 using various operators, hence this are the comparison results displayed:
